Dear Sir:

My client is informed from a very good source he says that Sully never painted Hamiltons portrait and I believe Sully was in the South till some time after Hamilton died - I will have to take the picture back to you next time I come to Philada - The picture may be by Sully but of some other character.

I have spoken of the 4 pictures from Mt Vernon my client says he will take them if they are good enough but can not judge without seeing them - will pay expenses both ways if you will have them properly boxed and

Send an appraisal —

Yours Sincerely
J. F. Sabin
